## ARTIFICIAL INTELLIGENCE AND EDUCATION

Although flying cars aren't a reality yet, artificial intelligence is a pervasive part of our 21st century lives.

Its impact on the workplace is already felt, but how does it affect the way students learn? How will teachers have to change what they teach, and the way they teach it, to prepare students for the rapidly developing world?

2SER producer Gilbert Siahaan spoke to Dr. Simon Knight, lecturer at the Connected Intelligence Centre at the University of Technology Sydney, to find out more.

### Artificial Intelligence and Education
